

01 April 2008

20:00 - 22:00

EIF - EPFSF JOINT DINNER DEBATE

## Electronic payments: moving to a cashless society?

What will be the impact on European citizens of mobile technology for the delivery of financial services? And how can Europe gain a leading position in this on-going development? These were some of the questions that were addressed at this dinner discussion. The aim was to provide an overview of both financial market aspects (including SEPA), as well as examples of specific technologies to implement the move to a cashless society.

This Dinner Debate was organised in co-operation with the European Parliament Financial Services
