EIF STUDY VISIT TO BERLIN

How to create the right ecosystem for top ICT hubs: the Berlin case

The programme of the EIF Study Visit to Berlin will be aimed at offering EIF Political Members a real hands-on experience of today's state-of-the-art technologies and R&D sites within the European Union, as well as a deeper understanding of the conditions that allow the development of the appropriate ecosystem, with a reflection on the role of policy-makers.

The program will include high-level meetings and visits to university and company labs, as well as the participation in [‘The Long Night of Start-ups’](#).
