DINNER DEBATE

Cybersecurity in Europe: what next?

The European Commission proposed a Communication and a Directive dealing with the issues of cybersecurity.

As both the European Parliament and Council are starting their work on the Directive, it is a good moment to reflect on the main aim of these instruments, the challenges that they are trying to address and what are some key topics of discussion.

opportunity to exchange views with various stakeholders. This EIF Dinner Debate will offer a timely

More information on the Cybersecurity Directive proposal is available [at this link](#).
