

**27 November 2007**

**20:00 - 22:00**

**DINNER DEBATE**

## The European Commission Telecom Package

A double set of events devoted to the “European Commission Telecom Package” took place in the European Parliament. At this dinner on the 27 November, the focus was on the main regulatory aspects of the e-Communications review.

With a number of short interventions on specific aspects of the package, the aim was to stimulate debate and provide participants with a broad picture of the main issues at stake in this highly topical initiative. During a breakfast on the following day, the discussion addressed issues relating to security and privacy.
